

JSC “SEVMORNEFTEGEOFIZIKA”

QUALITY MANAGEMENT

POLICY

SEVMORNEFTEGEOFIZIKA today is an undisputable leader in Russian marine geophysics. On the world market the company has acquired a reputation of a reliable highly-qualified marine geophysical contractor. It enables the company to develop dynamically and respond flexibly the varying conditions of geophysical services market.

Our strategic goals are as follows:

- increase of the company competitiveness and improvement of marine geophysical services quality;
- higher marine vessels' personnel qualification using the system approach towards training;
- increase in variety of marine geophysical services, participation in tenders with the appropriate marine vessels' equipping, involving subcontractors:
 - gravity and magnetic works;
 - geochemical surveys and core sampling;
 - high resolution engineering geological and geophysical research;
 - electrical surveys;
- maintenance of marine seismic vessels and navigational-geophysical systems in good operational conditions according to the law and international marine oil and gas industry conventions;
- activation of promotion activities and marketing policy on the world oil market, intensive searching for new clients and new market segments development.

The main direction of company development with respect to quality management is meeting growing demands of the clients. For these goals the higher management of the company and employees strive for the following:

- keeping up long term and mutually beneficial cooperation with the clients, suppliers and subcontractors;
- complying with legislative and normative requirements regarding services provided;
- maintaining the existing quality management system and providing integrated growth of its effectiveness;
- regular professional training of personnel;
- involving each employee in the provision and improvement of the quality of services rendered;
- being open for constructive dialogue with existing and potential clients of our services.

All the proclaimed is possible to fulfill only subject to realizing and complying with the existing requirements by each employee of our company.
